- d) Thursday

Q15. Find the number of days from 26th January 2011 to 23rd September 2011 (both days are included).

- a) 214
 - b) 241
 - c) 249
 - d) 251
-

Answers to the above questions :

Q1. Answer: (d)

26th January 2011 to 26th January 2012 will be considered as an ordinary year because 26th January in 2012 (a leap year) comes before 29th February.

Hence, the period of this one year will have only 1 odd day.

Since 26th January 2011 = Wednesday

? 26th January 2012 = Wednesday + 1 odd day

= Thursday

Q2. Answer: (b)

As we know that, first and last day of an ordinary year is the same.

Since, 1st day = Friday

? Last day = Friday

Q3. Answer: (b)

Since, December 17, 1899 - Saturday

December 17, 1900 - Sunday

December 18, 1901 - Tuesday

? December 22, 1901 - Saturday

Q4. Answer: (c)

According to the question,

National day = 4th Saturday

Since, 1st day = Tuesday

? 1st Saturday = Tuesday + 4 = 1 + 4 = 5th day

? 2nd Saturday = 5 + 7 = 12th day

3rd Saturday = 12 + 7 = 19th day

4th Saturday = 19 + 7 = 26th day

So, National day was celebrated on 26th of that month.

Q5. Answer: (b)

Number of days in 1996 (366-26) = 340

Number of days in 1997 = 365

Number of days in 1998 = 365

Number of days in 1999 = 365

Number of days from January 2000 to July 2000 = 31 + 29 + 31 + 30 + 31 + 30 + 31
= 213

Number of days from 1st to 15th August, 2000 = 15

? Total days = 340 + 365 + 365 + 365 + 213 + 15 = 1663

? 1663 ÷ 7 = remainder 4

? $1663 \text{ days} = (237 \times 7 + 4) \text{ days} = 237 \text{ weeks} + 4 \text{ days}$

? Number of odd days = 4

? Day on 15th August, 2000 = Friday + 4 Odd days = Tuesday

Q6. Answer: (c)

Fifteen days from 21st will be 26th and Monday lies on 3rd, 10th, 17th, 24th.

So, the day on 26th will be Wednesday.

Q7. Answer: (d)

The year 2006 is an ordinary year.

So, it has 1 odd day.

So, the day of 8th Dec 2007 will be 1 day beyond the day on 8th Dec 2006.

But, 8th Dec 2007 is Saturday.

Therefore, 8th Dec 2006 is Friday.

Q8. Answer: (b)

The year 2007 is an ordinary year.

So, it has 1 odd day.

1st day of the year 2007 was Monday.

1st day of the year 2008 will be 1 day beyond Monday.

Hence, it will be Tuesday.

Q9. Answer: (b)

The year 2004 is a leap year.

So, it has 2 odd days.

Therefore, The day of 6th March 2005 will be 2 days beyond the day on 6th March 2004.

But, 6th march, 2005 is Monday.

Therefore, 6th March 2004 is Saturday.

Q10. Answer: (c)

The year 2008 is a leap year.

So, it has 2 odd days.

1st day of the year 2008 is Tuesday (Given)

So, 1st day of the year 2009 is 2 beyond Tuesday.

Hence, it will be Thursday.

Q11. Answer: (c)

The year 2001 was an ordinary year and in an ordinary year 1st day = Last day

(remember) 1st January = 31st December

As, given that, 1st January = Monday

Hence, 31st December = Monday

Q12. Answer: (a)

In a leap year, Last day = 1st day + 1 odd day (remember)

As given, 1st day = Wednesday

Last day = Wednesday + 1 odd day = Thursday

Q13. Answer: (b)

2007 is an ordinary year and in an ordinary year 1st January = 31st December

As, 1st January = Monday

? 31st December = Monday

? 1st January 2008 = Monday + 1 odd day = Tuesday

Q14. Answer: (c)

Since 2008 is a leap year.

In a leap year, last day = 1st day 1 + odd day

= Tuesday + 1 odd day

= Wednesday = 31st December

? 1st January, 2009 = Wednesday + 1 odd day = Thursday

Q15. Answer: (b)

According to the question,

26th January to 31st January = 6 days

February = 28 days

March = 31 days

April = 30 days

May = 31 days

June = 30 days

July = 31 days

August = 31 days

1st September to 23rd September 23 days

Total days = 241

? Required days = 241

curated content to get an edge over your competition and prepare for your exams effectively.

Practice with our **Free Practice MCQs, Mock Tests Series, Online Quiz** and get an idea of the real exam environment. Keep track of your progress with our detailed performance reports. They are perfect for competitive exam preparation, as well as for brushing up on basic & fundamental knowledge. The questions are updated regularly to keep up with the changing syllabuses.
